

Twittelator Pro 3.3.1 released: Ultimate Twitter Client just gets better

Published on 10/29/09

Stone Design today released Twittelator Pro 3.3.1, a free upgrade to its top-selling Twitter client for iPhone and iPod touch. Twittelator Pro packs the most features into a Twitter client, mobile or desktop. Version 3.3.1 includes many new features as well as embraces new Twitter features in October. Twittelator Pro was recently featured at the top of the Summer's Hottest iPhone Apps in an Apple/AT&T full page ad in the Wall Street Journal, New York Times and USA Today.

Albuquerque, NM - Stone Design aka Big Stone Phone today released Twittelator Pro 3.3.1, a free upgrade to its top-selling iPhone Twitter client. Twittelator Pro was recently featured at the top of the Summer's Hottest iPhone Apps in an Apple/AT&T full page ad in the Wall Street Journal, New York Times and USA Today, and runs on all models of the iPhone and iPod Touch.

"As the Twitter API evolves, so does Twittelator" said Stone Design CEO Andrew Stone, @twittelator. "Users can geocode their tweets at will, report spammers, tap and hold any map to find tweets from nearby that location, anywhere in the world. What's exciting is that Twitter's new Auto Retweet system is built into this version ready to go when Twitter throws the switch."

The key new features recently added to Twittelator Pro v3.3.1 include:

- * Nearby Tweets of any location
- * Option to geocode your tweets with your location
- * Change your avatar picture
- * Report as Spammer - blocks and reports the tweeter
- * Entire TwitLonger is shown in place by tapping link icon
- * Localized to Japanese

(Note: these will start working when Twitter turns them on end of October)

- * Automatic ReTweeting uses new Twitter RT architecture
- * See all your RT's, RT's of your tweets, and RT's by your friends

With so many other power features including multiple accounts, record audio, shoot video, unlimited drafts, offline tweeting, unlimited sub groups of friends, Twittelator Pro v3.3.1 packs the most features into a Twitter client, mobile or desktop. Recently added was the ability to upload your photos directly to your own WordPress site when you install the free TweetPress Plug-In, and to claim your own shortened links produced by bit.ly.

"Twittelator has always rode the cutting edge," remarked Mr. Stone. "And yes, we've gotten cut! This release fixes a crasher that was found 4.5 hours before V3.3.1 became available, as well as other reported problems of V3.3 "

Twittelator Pro was listed on the top of "16 of the summer's hottest new releases" in the New York Times, Sunday August 2nd and the Wall Street Journal, Monday August 3rd in full page Apple and AT&T advertisements.

Twittelator Pro was chosen as Editor's pick for best iPhone Twitter client by Mac|Life in May 2009 issue.
