

Evervue Launches QAIO, The First Ever Smart Vanity Mirror

Published on 07/12/18

Evervue USA Inc. announces the launch of QAIO, a smart vanity mirror which lets users connect their smart devices, watch the latest news, get the updates on the stocks, see who is at their front door or get the ideal light for their make-up. QAIO is so much more than a mirror. With QAIO, merchants are not just adding another mirror to their stores; they are showcasing the future of the bathroom vanity mirror.

Newport Beach, California - Evervue USA Inc., a leading mirror technology company since 2001 with subsidiaries around the world, is proud to announce the launch of QAIO, a smart vanity mirror which lets users connect their smart devices, watch the latest news, get the updates on the stocks, see who is at their front door or get the ideal light for their make-up.

Evervue has continued to transform the way consumers use their bathroom vanity mirror. No doubt, they are the architect of QAIO which is a very smart mirror.

- * Built in Full HD Camera and Microphone (if desired, both can be unplugged for privacy).
- * Stunning product visibility (4K Ultra HD resolution on select models) with TV sizes ranging from 12.1" to 98".
- * QAIO comes standard with an additional 12.1" panel. This display can show local weather, stocks, transit-time to work, reminders and news.
- * Designed for easy installation in only 30 minutes.
- * Wireless Keyboard for navigating online, along with Alexa Voice Control and Touch Screen.
- * QAIO True light, which allows for custom lighting.
- * Built in Night Light with motion sensor... and so much more.

Evervue's QAIO offers attractive point of sales displays for Do-It-Yourself stores, Electronic Stores, Bathroom stores, Home Furnishing stores, and Department stores. QAIO is easy to install, convenient, and leave a lasting impression.

With QAIO, vendors are not just adding another mirror to their stores; they are showcasing the future of the bathroom vanity mirror. They are simply adding a completely new product category to their stores that will excite customers.
