

## Tardy Sweep for Late Students Used In Kentucky

Published on 09/25/18

Good School Tools announced that Tardy Sweep for Late Students version 1.3.1 for iOS devices is now being used by Jessamine High School in Kentucky. Tardy Sweep helps school administrators speed students to class during tardy sweeps. Tardy slips are generated instantly. Detentions can be assigned automatically as well based on a preset number of tardies.

San Diego, California - Good School Tools announced today that Tardy Sweep for Late Students 1.3.1 for iPhone, iPad, and iPod touch devices is now in use by Jessamine High School in Kentucky.

Tardy Sweep helps school administrators get students to class quickly. The school administration provides a roster containing student IDs and photos to each teacher's iPhone or iPad. The teacher can then quickly mark students tardy during sweeps around campus. That information is emailed, texted, or shared over wireless network to other administrator's and guardian phones.

"I've already shared the app info with some other principals in other districts! It's going great here! Teachers are happy with the app....students, not so much. :)" - Melissa Nolan, Assistant Principal East Jessamine High School

Good School Tools has provided Tardy Sweep services as part of our GSTools app to LAUSD schools for nearly a decade. We are simplifying the input of the student roster and streamlining pricing so that others may benefit from this extraordinary tool.

A short list of 8 student identifiers may be entered via the app or imported from a .csv file created by Excel or Numbers or output from your existing SIS. Those eight identifiers include:

- \* Student ID
- \* First Name
- \* Last Name
- \* Birthday
- \* Grade
- \* Gender
- \* Email
- \* Phone

This short list of identifiers is designed to allow for immediate identification of students during tardy sweeps.

Tardy Sweep information is kept on your phone like all Good School Tools apps so you can access your critical information even when wireless networks are down. You may enter a PIN number so that only you know how to access the student information.

### Device Requirements:

- \* iPhone 5s or later and iPod touch
- \* iPad 5th generation or later
- \* Requires iOS 11.0 or later
- \* 16.3 MB

### Pricing and Availability:

Tardy Sweep for Late Students 1.3.1 is Free (With In-App Subscription Purchase options)

prMac: Publish Once, Broadcast the World :: <http://prmac.com>

and available exclusively through the App Store in the Education category. For more information, please contact Tim Walton.

San Diego based Good School Tools, previously operating as TrueIDApps and School ID, has been providing Southern California school districts with mobile apps for administering students during normal and emergency conditions for nearly 15 years. Their flagship product, GSTools provides a suite of mobile apps which streamline the administrators' job around school by providing critical student information, including photos, right on the administrators' iPhone or iPad. GSTools integrates with most SISs. Good School Tools other tools take information exported from SIS systems to provide administrators additional capabilities to run the schools more efficiently.
