"MacX DVD products are synonymous with the fastest and most reliable video processing experience," said Jack Chen, CEO of the company, "Our flagship products, MacX DVD Ripper Pro, MacX VideoProc and MacX MediaTrans are especially designed to deal with today's large-size and high-quality video/audio media with impeccable speed and quality. We handpicked the three welcomed products for the gift-giving season as our 'thank you' to all of the customers. Savvy customers should take advantage of these great savings!"

MacX DVD Ripper Pro - It's the company's most popular DVD backup tool great for movie experience on mobiles, TVs, or even home theaters. It's able to back up and convert family and kids DVD movies to ISO, MP4, HEVC, MKV, MOV, AVI, QT, etc for playback on iPhone XS/XS

Max/XR/X/8, Samsung Galaxy S9/Note 9, Huawei, Apple TV, other devices easily.

It guarantees lossless DVD copy and 98%-quality-reserved DVD conversion thanks to the pioneering High Quality Engine which smartly switches between demuxing/remuxing and interframe/intraframe coding & entropy encoding tech. Together with GPU Acceleration tech, it's the only DVD ripper that's able to copy a DVD within 5 minutes, be it a full-length DVD, a 99-title DVD, multiple-title disc, latest-released movie or any other type.

VideoProc - It's a rising comprehensive tool to process 4K/HD videos. It equips features to transcode, edit, trim, cut, crop, resize, and adjust UHD and 1080P/720P videos from DSLR, DJI, GoPro, iPhone, online websites, DVD discs, and other modern devices. It comes with a 370 codec library and 420 devices profiles, meaning there's bound to be a perfect match for phones, tablets, TVs, game consoles, etc, regardless of SD/HD/4K UHD videos. Powered by Level-3 Hardware Acceleration of Intel QSV, Nvidia and AMD, Auto Copy and Deinterlacing techs, it goes 47x real-time faster than before without losing quality.

MacX MediaTrans - It's a one-click iPhone data management solution that eliminates the long-term difficulties of the archive and backup iPhone data. Within one click, it will transfer photos, videos, music, playlist, ringtones, books, etc. between iDevices (iOS 12 or earlier) and computer. It also leads in transferring speed, running 4-10x faster than many similar programs on the market. Overall, it's a combination of an iPhone data management tool, a music manager, a DRM remover, an audio & video converter, and an iPhone mounter.

"We know many of our customers are starting to think about Christmas presents, parties, entertainment, family movies & music and maybe travels at this time of year and we're excited to offer products at great deals when shoppers need them most", added Jack Han, "Our 3-in-1 suite is just in time to help customers keep memories, share recordings, enjoy movies or create home videos/discs easily."
