Zuvolo Friends - The real-time location sharing app for friends & family

Published on 12/17/18

Zuvolo Ltd releases Zuvolo Friends 1.3.99, a new location sharing app allowing friends and family to quickly share locations and important markers in real-time. In two taps users can start sharing their location and appear on the map, or stop and disappear, offering total privacy control. Add and remove markers from the map using tap-and-hold. Watch location tracking in almost real-time. A beautifully polished UI perfect for any activity and between any number of friends for day to day use.

Sonning, Oxfordshire, United Kingdom - Zuvolo Ltd today introduces Zuvolo Friends 1.3.99 their brand new location sharing app that allows users to share their location when they want to, and with whom they want. Control over privacy is important. With Zuvolo Friends users can:

* Choose exactly which friends and family will have permission to see them on the map
* Decide exactly when they want to start and stop sharing their location
* Set a Privacy Zone for a location where they don't want to be visible on the map
* Add Markers to the map to share points of interest and important locations
* Send and receive real-time location updates every few seconds

Zuvolo Friends makes location sharing a simple and seamless experience for almost any situation or activity. Keeping your location up to date has never been easier. Using Markers makes it easier to find meeting points, favourite locations, important places, or for leaving messages at a particular location. Users can share markers on the map instantly for friends and family to see up to a month, before they disappear.

"Zuvolo Friends has been built from the ground up with the main focus being the user experience" commented CEO and company founder, Steven Abrams. "We wanted to craft a social
location sharing app that gave people full control, honoured their privacy, and could be used for any occasion. This is just the beginning and we have plans to add engaging and fun features in the future. Soon we also plan to release Zuvolo Cycling for the cycling community. We are very keen to get your feedback to help us shape and develop our features. Zuvolo Friends is already primed for future releases on different platforms and we are very excited about the road."

Device Requirements:
* iPhone Compatible
* iOS 9.3 or later
