

## Public Beta of DataOrganizer 1.0 with Bento Importer Now Available

Published on 01/04/19

Bayhoff Software today released the public beta of DataOrganizer 1.0, the first public release of their new personal database app for Mac. DataOrganizer is designed to be a powerful yet easy-to-use personal database. DataOrganizer ships with eight ready-made templates, including Clients, Inventory, Issues, Journal, Membership List, Party Planner, Recipes, and Serial Numbers. In addition, DataOrganizer includes a Bento 4 importer and supports Mojave's Dark Mode.

Huntington, New York - Bayhoff Software today released the public beta of DataOrganizer 1.0, the first public release of their new personal database app for Mac. DataOrganizer is designed to be a powerful yet easy to use personal database. Prior versions of the DataOrganizer beta have been available for readers of the Bayhoff Software blog for a few months. Starting with the present release, the beta is now available for everyone to download.

### Main Features:

- \* Imports data from Bento 4; DataOrganizer supports 20 of the 23 Bento field types
- \* Includes eight ready-made templates; Clients, Inventory, Issues, Journal, Membership List, Party Planner, Recipes, and Serial Numbers.
- \* Creates custom libraries in minutes
- \* Links to Contacts, Calendar, Mail, and the Finder using the contacts list fields, calendar events list fields, messages list fields, and files list fields, respectively
- \* Stores collections of photos using media collection fields
- \* Libraries can link to other libraries using relationship fields
- \* Supports Mojave's Dark Mode

### System Requirements:

- \* macOS 10.13 High Sierra or later

### Pricing and Availability:

The DataOrganizer 1.0 beta is available now and is free to use throughout the beta period. Pricing and availability for the final version will be announced at a later date. For more information, please contact Daniel Freedman.
