

Graphic Node's Templates for Pages gets a massive update

Published on 01/21/19

Graphic Node releases Templates for Pages - DesiGN 6.0, a massive update to their popular productivity app for macOS. Templates for Pages - DesiGN features a large selection of templates from books and invitations to posters & brochures. The package offers a variety of around 10,000 layouts to meet the most diverse needs. The update brings thousands of new items & opens up a multitude of new categories. Older templates have been updated for compatibility with the newest versions of Apple Pages.

Sakiai, Lithuania - Templates for Pages - DesiGN, one of Graphic Node's best-selling and most popular templates apps gets a massive update with a year's worth of content and improved functionality. The update brings thousands of new items across the existing and opens up a multitude of new categories. Older templates have been updated for compatibility with the newest versions of Apple Pages.

On the technical front, the update brings significantly better compatibility with macOS 10.14 Mojave, Pages 7.3, and most visibly, adds the Mojave Dark Mode integration to be easy on the eyes during those late-night sessions. In addition to supporting the latest and greatest, Templates for Pages - DesiGN improves the compatibility for older versions of Mac OS X, such as El Capitan.

"It has been quite some time since we last updated Templates for Pages - DesiGN on the technical end because we are focusing on delivering great content to our users. We took our time to develop this update, but we think our users will love it, as it not only brings tons of new templates that bring the total count to over 10,000, but all the technical work we've done under the hood opens up ways for the great things we have planned for it in the future," explained Arunas Puodziukas, General Manager of Graphic Node.
