

## FmPro Migrator 8.74 Improves FileMaker to LiveCode & MySQL Data Transfer

Published on 03/18/19

California based .com Solutions Inc. has released FmPro Migrator Platinum Edition 8.74, supporting FileMaker Pro Advanced 11-17 on macOS and Windows. FmPro Migrator is a stand-alone application which quickly and accurately migrates FileMaker Pro, Access, VFP databases to MySQL, Oracle, SQL Server, Sybase, DB2 and more. Version 8.74 is a maintenance release improving FileMaker to LiveCode, Image Export to SQL, data transfer to MySQL and AppleScript automation.

Fremont, California - .com Solutions Inc. has released FmPro Migrator Platinum Edition 8.74 as a maintenance release providing improvements to the FileMaker to LiveCode, Image Export to SQL, data transfers to MySQL and AppleScript automation. This release supports FileMaker Pro Advanced 11 - 17 on macOS and Windows. A summary of improvements in FmPro

Migrator 8.74 includes:

- \* Fixed an issue with the LiveCode conversion project FmPro Converted Scripts.txt output file growing too large.
- \* Added local variables to the CreateConnectionObject handler in the LiveCode template stack.
- \* Fixed cosmetic issue in display of the Image Export SQL results text if 0 records were transferred. Also, added the clearing of the results text when switching tables.
- \* Fixed a cosmetic text label issue within the Manage Deleted Fields window.
- \* Updated the list of reserved words to support MySQL 8 when creating tables.
- \* Improved the display of Unicode error messages returned from database servers during the Get Fieldsize, Create Table and TransferData steps.
- \* Image Export to SQL error reports now contain the name of the table as part of the filename and the number of errors listed at the top of the report.
- \* Fixed an incorrect error message about 2 copies of FileMaker running on macOS due to the PSConversionHelper.xpc also running.

Pricing and Availability:

FmPro Migrator Developer Edition is priced at (\$199) per developer, FmPro Migrator Platinum Edition is priced at (\$599) per developer, and both versions are available immediately.
