

Endless Bowling Paradise raises classic bowling game to a new level

Published on 05/09/19

Sydney based Innolab Pty Ltd has just released Endless Bowling Paradise game for iOS and Android. Created for all lovers of bowling, Endless Bowling Paradise requires players to try and achieve the highest scores by bowling through the maze of obstacles to knock the pins down. Players also need to control the ball on the tricky tracks from falling out. This game will test the player's reflexes and their accuracy as each alley has 10 sections with 100 pins to knockout.

Sydney, Australia - Innolab has just released Endless Bowling Paradise game for iOS and Android. It takes the classic 3D sports bowling ball game to a more exciting level with an endless rolling bowling ball gameplay. Endless Bowling Paradise was created for all lovers of bowling that like to test their own reflexes and their accuracy and try to bowl through a maze of obstacles in order to achieve their high scores.

The bowling ball game and the features offered on it as well for the addictive gameplay will test the skills of each player while keeping their attention during game play. The game requires players to try and achieve the highest scores by bowling through the maze of obstacles to knock the pins down. Players also need to control the ball on the tricky tracks from falling out.

Features:

- * Each alley has 10 sections and 100 pins to knockout
- * 50 levels of difficulties in 3 groups: Easy, Hard and Challenging
- * Three locations to play bowling with stunning graphics and addictive gameplay mechanics
- * Peaceful Island
- * Deep Space
- * Mystic Forest
- * Realistic bowling 3D physics
- * Beautiful balls to choose from

The players that have the most precise reflexes and are accurate the most will win the highest scores and get the title of the best player in the game.

"There are many classic bowling games, we would like to introduce something new, more actions, challenging, and keeping players engaged", says Chinh Nguyen, creator of the game.
