

ReaddleDocs 1.6 makes reading PDFs on iPhone desktop class

Published on 11/02/09

Readdle today announces ReaddleDocs 1.6, a new version of their popular document and file management solution for iPhone and iPod touch. Version 1.6 adds a professional PDF document viewer that supports full text document search, password protected documents, navigation through embedded PDF bookmarks and handling large PDF files. ReaddleDocs combines a number of powerful document viewers, network file server, web storage client, web browser and file manager within a single application.

Odessa, Ukraine - Today Readdle announces the release of ReaddleDocs 1.6, a new version of their popular document and file management solution for the iPhone, that adds professional PDF document viewer to the application. New PDF viewer supports full text document search, password protected documents, navigation through embedded PDF bookmarks and handling large PDF files. ReaddleDocs 1.6 is available on Apple App Store at \$6.99 to new customers and as a free upgrade for existing users.

ReaddleDocs combines number of powerful document viewers, network file server, web storage client, web browser and file manager within a single iPhone business application. It allows people to transfer documents to their devices over Wi-Fi and 3G in a number of ways, view them on the go, send by email and share with other iPhone users with ease.

Existing support for saving email attachments combined with its new ability to read password protected PDF documents, makes ReaddleDocs 1.6 the best way to read password protected PDF email attachments on the iPhone. It is supported via Readdle Storage, Readdle's iPhone friendly cloud file storage solution.

Another two problems solved by ReaddleDocs 1.6 are quick navigation through the document and support for large PDF files. ReaddleDocs 1.6 excels in document navigation by implementing full-text search, go to page navigation, fast document scroll and supporting embedded PDF bookmarks. Also, application opens many PDF files that are too large for the built-in iPhone PDF viewer.

"New professional PDF viewer is very important addition to the extensive ReaddleDocs feature set, that significantly extends application utility for both the customers. However, we are already working on adding even more power to the PDF viewer with hyperlinks and PDF editing capabilities. And this is just a few of the great features coming to ReaddleDocs later this fall," notes Alexander Tyagulsky, Readdle CMO.

Device Requirements:
iPhone or iPod touch 2.2.1 or later
