

The first CDO Apps puzzle Silly Memory is out now

Published on 07/31/19

Indie French studio, CDO Apps releases Silly Memory 2.2, an update to their free puzzle game for iOS and Android. Silly Memory revisits the concept of the Match-pairs Memory game, combining dynamic gameplay to a humorously-narrated adventure in space. Play as Gorzbul, an alien who is trying to find a path to Earth, intercepting transmissions sent through space by the Humans. Version 2.2 brings many tweaks and balances to the gameplay to improve in-game experience.

Paris, France - The indie French studio CDO Apps team is introducing their first Mobile Puzzle Game (iOS and Android), Silly Memory by adding a dynamic gameplay to the "match pair" memory game concept. Silly Memory proposes an entirely humorously narrated adventure across space, challenging the player's logic, and swiftness.

Meet Gorzbul an alien, highly intrigued by mankind, who started a project to decipher human transmissions scattered across space and find the path to Earth to do so, he will need to sharpen his technology, with the support and guidance of AI, a cynical yet friendly artificial intelligence, who never misses a chance to show spirit when it's about lifting moods.

Silly Memory features:

- * An exciting original gameplay, mixing memory, speed, and logic
- * Story Mode: experience Gorzbul's silly adventure through 30 challenging levels
- * Endless Mode: face an increasingly insane difficulty, and get the highest score in this infinite game mode
- * Complete many secondary missions, and weekly challenges to earn Silly Golds aplenty, and write your name on top of the leaderboard
- * Develop 4 different technologies to become the best space decoder
- * 7 characters to discover, all crazier than each other
- * Having a rough patch? Use Dedocools: boosters to get a little support in the toughest missions
- * A uniquely cartoon visual and musical ambiance

Device Requirements:

- * iPhone, iPad, and iPod touch
- * Requires iOS 10.3 or later
- * 210.9 MB

Pricing and Availability:

Silly Memory 2.2 is Free (With In-App Purchases) and available worldwide through the App Store in the Games category. There is also an Android version available on Google Play.
