

## **Cisdem PDF Converter OCR 7.0.0 Has Fixed Bugs and Refined Interface**

Published on 08/11/19

Cisdem announces Cisdem PDF Converter OCR for Mac has been upgraded to version 7.0.0 to fix bugs and improve user interface. The latest version 7.0.0 has fixed the output size enlargement issue, which could happen on Macs with Retina display. Cisdem PDF Converter OCR for Mac is a PDF converter, PDF creator, OCR tool, PDF combiner/splitter, etc. all rolled into one. Its Converter function can convert PDF files, including the native ones and scanned/image-based ones, to 16 different formats.

Madelia, Minnesota - Cisdem announces an update for its flagship app PDF Converter OCR to fix bugs, refine interface and improve performance overall. The latest version 7.0.0 has fixed the output size enlargement issue, which could happen on Macs with Retina display.

Cisdem PDF Converter OCR for Mac is a PDF converter, PDF creator, OCR tool, PDF combiner/splitter, etc. all rolled into one. Its Converter function can convert PDF files, including the native ones and scanned/image-based ones, to 16 different formats such as Word, Excel, PowerPoint, HTML, EPUB and PNG. The Creator function enables users to create PDF from Word, HTML, text, images and various other file types.

"This update has fixed some bugs and improved the interface of the PDF creator function," said Edward Riley, Cisdem's project manager. "Users can upgrade to the latest version for free and enjoy better experience. At Cisdem, we always believe in bringing the best experience possible to our customers."

### **What's New in Version 7.0.0?**

1. Fixed the retina display related output size enlarge issue
2. Refined PDF creating interface
3. Other minor bug fix

### **Main Functions**

1. Convert PDFs and images to 16 formats

This PDF converter for Mac can convert both native/searchable and scanned/non-searchable PDF files to common formats such as DOCX, PPTX, XLSX, TXT, RTFD, EPUB, HTML, PAGES, TIFF, PNG and more. Users can easily and instantly make any PDF searchable or editable.

2. Create PDF from different files

Users can efficiently make PDF from Word, HTML, Excel, images and various other files. In addition, PDF Converter OCR enables users to password protect the output PDF files. Also, one can choose from an array of page size options and quality options while creating a PDF.

3. Perform OCR on PDF and image with over 200 recognition languages

The OCR feature can accurately and quickly extract content such as text and tables from scanned/image-based PDF and images. Users can also manually adjust OCR recognition areas to get more desirable results.

4. Keep the original formatting, hyperlinks, images, etc.

The converted files will retain the formatting, layouts and images, among other things.

5. Provide a batch mode

Users can convert or create multiple PDF files in batch, which improves efficiency and saves time.
