Casselberry, Florida - Econ Technologies today releases InterConneX 2.0, an update to its popular file storage, management, and sharing app for iPad and iPhone.. InterConneX 2.0 introduces direct cloud support for Backblaze B2, Amazon AWS, Google Cloud and SFTP Servers. The reinvented App offers an Adaptive Interface on iPad for full multi-tasking support to create a robust file management experience on iOS. Since InterConneX can share documents with your Apps, you can open Pages or Numbers Documents right on your ChronoAgent Mac, make changes and save them back. Then share them to your Backblaze B2 Bucket all linked via InterConneX.

Take your iPad multi-tasking experience to the next level using InterConneX in Split View or Slide Over. Drag & Drop files between sharespaces to copy items to your Mac or cloud storage buckets. Even Drag & Drop to other Apps on iPad. InterConneX also supports FaceID as well as TouchID to protect sharespaces for securing your documents when you are on-the-go.

Duilio Proni, President of Econ Technologies, Inc. said "InterConneX really bridges the gap between your Mac, your mobile device and the cloud." Adding, "InterConneX and iPad Pro are a great combination!"

Beyond the new features, InterConneX offers a more consistent interface, many tweaks and numerous bug fixes to make the overall fit and finish of this free App more polished.

The lineup of InterConneX, ChronoSync and ChronoAgent links your files between iPhone, iPad, and Mac while harnessing the power of Backblaze B2, Amazon AWS, Google Cloud and SFTP Servers. Get InterConneX today, Free from the App Store.

ChronoSync, the multipurpose Mac App for local and cloud backup, bootable backup and folder synchronizing is designed to work on macOS version 10.11 and newer. Econ has produced software that runs on Apple products for over 20 years. Econ Technologies, Inc. was established in Central Florida in 1991. It is named after the Econlockhatchee River, which flows past the site of our original office where all of this began. On October 31, 2001 we introduced our first app, Portraits & Prints, that was developed specifically for macOS. We followed that up with ChronoSync which was first released February 15, 2002. Since that time ChronoSync has gone through numerous updates and we have never charged for a single update. On July 29, 2013 we launched InterConneX for the iPad followed by InterConneX for the iPhone in September. All Material and Software (C) Copyright 2019 Econ Technologies. All Rights Reserved.
