

## WaterField's Best iPhone 11 Cases Satisfy Variety of Uses and Styles

Published on 09/10/19

WaterField Designs introduces its best iPhone 11 Cases custom-sized for the new iPhone 11, 11 Pro, and 11 Pro Max. The iPhone Ranger Case is a full-grain leather holster-style case suitable for both professional & hard-hat environments. The Fused Suede Case is a double-layer Ultrasuede sleeve ideal for protecting the iPhone from bumps & scratches inside a bag or pocket; and the Marqui Crossbody Pouch, a minimalist crossbody bag that keeps the iPhone 11 and additional necessities close at hand.

San Francisco, California - WaterField Designs, a leading San Francisco manufacturer of custom laptop sleeves, bags and cases for digital gear, introduces its best iPhone 11 Cases custom-sized for the new iPhone 11, 11 Pro, and 11 Pro Max: the iPhone Ranger Case, a full-grain leather holster-style case suitable for both professional and hard-hat environments; the Fused Suede Case, a double-layer Ultrasuede(R) sleeve ideal for protecting the iPhone from bumps and scratches inside a bag or pocket; and the Marqui Crossbody Pouch, a minimalist crossbody bag that keeps the iPhone 11 and additional necessities close at hand all day. Each case is meticulously handcrafted in San Francisco, California.

"We've been making custom-sized cases for the iPhone since it first launched," said company founder Gary Waterfield. "Over the years our customers have told us how their phones fit into their daily routines, and we use their feedback to design new cases. For example, you can use wired earbuds while the iPhone is still in the case, and we add pockets for storing earbuds, Air Pods, cash or a key."

The Ranger iPhone Case is a full-grain leather iPhone holster with an innovative fastener for enhanced security and rare-earth magnets that easily attach to clothing or straps. The hands-free case is tough enough for industrial work sites and stylish enough for professional offices:

- \* Thick, naturally-tanned, black or chocolate full-grain leather ages beautifully and scratch-free Ultrasuede(R) lining helps clean iPhone screen as phone is inserted and removed
- \* Self-finding, Neodymium rare-earth magnetic attachment system fastens securely
- \* Award-winning Fidlock fastener closes front flap, keeping iPhone protected
- \* Text and call notifications remain audible with iPhone inside; bottom cut-out to connect charging cord or earbuds
- \* Tapered sides ease iPhone removal; side openings grant access to volume and sleep buttons
- \* Front leather pocket holds earbuds or cash and a key

The Fused Suede Case is a slim and elegant custom-fitted iPhone sleeve to protect against bumps and scratches. Its refined simplicity and dual color options lend the sleeve a look that sets it apart from existing iPhone case options:

- \* Four contrasting color combinations of fused double layer scratch-free Ultrasuede(R) ER, an ultra-soft, lightweight, colorfast material that does not pile, stretch, or shrink, and helps clean iPhone screen with each use
- \* Text and call notifications remain audible with iPhone inside; bottom cut-out to connect charging cord or earbuds
- \* Stretch-mesh back pocket holds earbuds, Air Pods, cash, cards, or a key
- \* Six custom-fitted sizes snugly cradle iPhone 11, 11 Pro, or 11 Pro Max, either "naked" or inside an Apple Case

The Marqui Crossbody Pouch is a ruggedly-constructed, modern minimalist bag that merges practicality with high fashion. The Marqui crossbody bag holds an iPhone and other essentials so comfortably, it can be worn all day, leaving pockets liberated and hands-free:

- \* Premium, full-grain leather on rugged ballistic nylon creates uncluttered, timeless look
- \* Front, quick-access pocket secures iPhone 11 with smooth, water-resistant YKK zipper
- \* Gold, rip-stop liner lights up interior making contents easy to locate
- \* Hidden self-locking YKK zipper fastens main compartment
- \* Two interior and one exterior open-topped pocket add organization
- \* Angled adjustable strap keeps bag comfortably flat against chest, hip, or back
- \* Metal camlock with attractive leather pull-tab easily tightens/loosens strap

WaterField also offers niche iPhone Cases for cyclists and for users who prefer to carry the iPhone inside a wallet. WaterField's Cycling Ride Pouch and Cycling Club Pouch fit into a cycling jersey pocket and allow cyclists to keep their iPhone close at hand on long rides. WaterField's Finn Wallet and Finn Access Wallet each hold cash, cards, and an iPhone 11, all secured with a self-locking zipper.
