

Voice Over Video Lite from VideoGo Ltd

Published on 09/11/19

UK based VideoGo Ltd today announces Voice Over Video Lite App, a new release to the company's professional level video branding solution app developed exclusively for iOS devices. Used for product/marketing opportunities and sales prospecting, commentary and testimonials, Voice Over Video Lite enables you to overwrite a voice over from a video you have already taken, or to create a voice over track over an existing video. Perfect for vloggers, small business and the corporate sector.

London, United Kingdom - VideoGo Ltd today is proud to announce the release of Voice Over Video 1.1, an update to the company's professional level video branding solution app developed exclusively for iPhone, iPad and iPod touch devices. VideoGo is the ultimate series of video apps to create and share your own branded broadcast quality videos quickly and easily from your mobile device.

Perfect for vloggers, small business and the corporate sector, Voice Over Video offers a nicely designed interface that is simple to operate. Without the use of expensive editing tools you can easily re-create your audio over the top of your device, without a retake.

Do any of the above sound familiar?

- * Bad initial Audio Recording
- * Too much Ambient Noise Around
- * Made a mistake in your script
- * To many distractions whilst initially recording
- * Awkward environments for recording audio
- * Need an Audio Retake

Save on expensive effects software, steep learning curves and edit time by using voice over video with our recording start & stop feature. Instantly share in an email to a sales prospect or an existing client, share over social media or archive for later.

Some Features include:

- * 60 second or unlimited video record
- * Repeat Start / Stop audio recording throughout timeline
- * Video archive of saved videos
- * Access to camera roll direct through app
- * Video preview
- * Timeline bar for recording length vs video
- * Share via email, social media, save to gallery

"Our team have over 40 years experience in the broadcast, television and video industries. And with the expanding mobile market, decided to create a suite of video apps for use with your mobile device," explained Joph Hord, co-founder of UK based VideoGo Ltd. "With a template structure in mind, we create apps which enable our customers to speed up their workflow and produce consistency in their brand."

Device Requirements:

- * Compatible with iPhone, iPad, and iPod touch.
- * Requires iOS 12.1 or later.
- * 15.2 MB
- * Rated 4+
