

CS Odessa Introduces ConceptDraw OFFICE 6 for macOS and Windows

Published on 10/08/19

CS Odessa releases ConceptDraw OFFICE 6, the next generation of its popular business performance management software suite for macOS and Windows. The major update to the ConceptDraw OFFICE software suite provides business professionals with the advanced features of each of its components and enhanced access to integrated solutions for business diagramming, mind mapping, and project management, expanding the capabilities of each of its software tools.

Odessa, Ukraine - CS Odessa announces the release of the next generation of its popular business performance management software suite, ConceptDraw OFFICE 6. The major update to the ConceptDraw OFFICE software suite provides business professionals with the advanced features of each of its components and enhanced access to integrated solutions for business diagramming, mind mapping, and project management, expanding the capabilities of each of its software tools.

ConceptDraw OFFICE 6 brings a set of improvements that help professionals visualize, maintain, and communicate all aspects of business workflows even more efficiently.

ConceptDraw OFFICE 6 delivers new and improved versions of each of three popular ConceptDraw applications that provide knowledge workers, managers, consultants, and project managers with the visual support of business and process management; and assistance in the graphical conveyance of information and data.

Gregory Zhukov, Chief Executive Officer of CS Odessa comments, "We position CS Odessa as a user-oriented developer that endeavors to support users in moving their business forward."

Gregory Zhukov, further states, "Based on market trends and user feedbacks, the latest ConceptDraw OFFICE update ensures that it continues to be the leading software suite ever used to design business visuals for enhanced productivity and clear communications."

ConceptDraw DIAGRAM 13 is featured with import/export of GIF animation, that allows embedding the GIF animation into drawing and making an animated GIF from a presentation. The new cropping tool, available for raster images to trim or remove unwanted parts of images. The enhanced connectors allow drawing connections that do not have a visible touch with objects.

ConceptDraw MINDMAP 11 introduces a new Solutions panel containing a list of mind mapping solutions. New topic alignment tools are useful to manage the layout of mind map topics, images, and graphics. The possibility to add a title to the boundaries enables using the Boundary tool to group up visual frames under the general title. The ability to merge topics is implemented.

ConceptDraw PROJECT 10 now includes the possibility to view the color graphics representation of tasks completion statuses of each project in the Gantt Chart of the Multiproject Dashboard. The process of tracking baselines becomes easier. The ability to graphically see changes in the base schedule makes it easy to compare the actual project schedule with the planned one.

ConceptDraw OFFICE 6 is compatible with the latest versions of both Windows OS and macOS, including just released macOS 10.15 (Catalina). ConceptDraw OFFICE 6 retails for \$499 USD. It includes ConceptDraw MINDMAP 11, ConceptDraw PROJECT 10, and ConceptDraw DIAGRAM 13 that are each available individually.
