

Introducing Focusplan on the Mac App Store - A powerful Mind Mapping app

Published on 12/03/19

The Focusplan Team today released Focusplan 1.0, a brand new visual thinking app that redefines mind mapping and brainstorming on the Mac. Providing professional and creative-grade tools in an incredibly intuitive and accessible design, Focusplan includes a flexible canvas editor, 200 colorful artisanal crafted stickers, 6 stunning and adjustable themes, iCloud Drive sync, imports, exports, sharing with friends, continuity camera, dark mode and more.

Bologna, Italy - Focusplan Team today is incredibly proud to announce the release and immediate availability of Focusplan 1.0 on the Mac App Store, a powerful mind mapping and brainstorming visual thinking tool wrapped within an easy-to-use interface. Built around an innovative visual canvas editor, Focusplan lets users to capture, develop, and share ideas, turning them into stunning mind maps.

Focusplan is a beautiful, powerful, and easy to use mind mapping and brainstorming app. Featuring an elegant and streamlined document-window interface, it puts all the focus on the mind map you create. And with a sleek design that is completely integrated with your Mac, it feels immediately familiar from the moment you first open the app. So mind mapping becomes more straightforward and more enjoyable than ever.

Focusplan includes a powerful and flexible visual canvas editor that lets users create, move, arrange, attach, and detach topics. Allows users to adjust color themes, configure topics, branches, and layouts in a very intuitive way.

Features:

- * Unique and powerful free-layout canvas
- * Supports multiple mind maps on a single page
- * Add images, stickers, colors, and styles to your mind maps
