

## **Adobe InDesign Plug-Ins and PDF Tools on 50% off Spring Sale**

Published on 03/25/20

Zevrix Solutions, a developer of automation solutions for Adobe InDesign, PDF workflows and Microsoft Office, announces today a spring sale until April 3. The company offers 50% discount on all products including upgrades. Zevrix offers plug-ins for InDesign that automate document printing and exporting, reduce linked image size, and simplify file packaging. The company's software also automates PDF printing and conversion, image and vector file preflighting, and output from Microsoft Office.

Toronto, Canada - Zevrix Solutions, a developer of automation solutions for Adobe InDesign, PDF workflows and Microsoft Office, announces today a spring sale until April 3. Zevrix offers 50% discount on everything in its online store including product upgrades. The company offers several popular plug-ins for Adobe InDesign and Illustrator, which help professionals automate document output, automate repetitive tasks, save disk space, and cut production costs.

"Zevrix software its the best kept secret out there for the Graphic Design industry," says Darren Rath of eponymous design studio in Melbourne, Australia. "It rocks and continues to impress and improve at a scary rate... Thanks to Zevrix products, every piece of artwork that flies out of here requires no intervention by the prepress departments."

The following products are available on sale:

\* LinkOptimizer for InDesign, a plug-in that reduces link size by eliminating excess image data, performs essential picture adjustments, and converts file formats. LinkOptimizer lets users save gigabytes of disk space, cut down on processing time, and reduce production costs.

\* Output Factory for InDesign, a document printing and exporting automation solution that offers batch output, layer versioning, export as single pages, preflighting, variable file names, and more. A server version that processes files from watched hot folders is also available.

\* Package Central for InDesign, a server-grade tool that automates packaging of InDesign documents from hot folders. The app automatically collects InDesign documents along with their links and fonts with the ability to include PDF and IDML files, send email notifications, assign variable folder names and more.

\* Zevrix tools for PDF workflows let users batch print PDF files and automate preflighting, color conversion and format exchange. The company also offers batch output solutions for Microsoft Office, file delivery automation tools, and quality control software for images and vector graphic files.

### Pricing and Availability:

Zevrix software can be purchased at 50% off until April 3, 2020 from Zevrix website. For details, please visit the website. Product trials are also available for download. All Zevrix products require macOS 10.8-10.15; InDesign and Illustrator solutions require Adobe Creative Cloud CS5-2020 software.
