

Default Folder X 5.5 updated for Big Sur, Apple Silicon and more

Published on 11/06/20

St. Clair Software releases Default Folder X 5.5 today, an update to their award-winning utility for macOS. Default Folder X enhances the file dialogs in all macOS applications. It provides fast navigation to your files, convenient previews, integrated Spotlight tagging, and more. Default Folder X's custom keyboard shortcuts put favorite and recent folders at your fingertips. Version 5.5 delivers support for macOS 11.0 Big Sur and Apple Silicon-powered Macs, and now tracks cloud-synced files.

Denver, Colorado - St. Clair Software is pleased to announce the availability of Default Folder X version 5.5 today. This release of its award-winning utility for enhancing Open and Save dialogs now fully supports macOS 11.0 Big Sur and Apple Silicon-powered Macs. It also tracks files and folders synced via cloud services like iCloud, Dropbox, Google Drive and OneDrive, putting them in your Recent Files and Recent Folders menus as soon as they change.

Default Folder X's custom keyboard shortcuts put your favorite and recent folders at your fingertips. Pop-up menus let you quickly navigate your folders and open Finder windows. Previews, file information, Spotlight tagging and comments are there when you need them. Open, save, and get back to work: Default Folder X speeds your workflow by making file management fast and efficient.

The changes in Default Folder X 5.5 include:

- * Compatibility with macOS 11.0 Big Sur
- * Default Folder X is a Universal App that runs natively on Apple Silicon
- * An updated user interface that integrates with Big Sur's new look and feel
- * Recent file and folder tracking that recognizes changes from iCloud, Dropbox, Google Drive, OneDrive and Box Sync
- * Corrections for several compatibility issues and bugs

While the marquee features for this release are support for Big Sur and Apple Silicon, many improvements and fixes apply to older versions of macOS as well. For a complete change history, visit the St. Clair Software website.

System Requirements:

- * macOS 10.10 through 11.0
