

BatchOutput for Microsoft Excel Automation Now Supports macOS Big Sur

Published on 12/08/20

Zevrix Solutions announces BatchOutput XLS 2.5.13, a compatibility update to company's output automation solution for Microsoft Excel. BatchOutput automates printing and exporting of multiple spreadsheets to PDF and allows to carry out professional PDF production directly from Excel. The app offers PDF security, image compression, variable file names and more. The new version adds support for the recently released macOS Big Sur and automatically fixes file permission errors during activation.

Toronto (ON), Canada - Zevrix Solutions announces BatchOutput XLS 2.5.13, a compatibility update to company's output automation solution for Microsoft Excel on macOS. The only batch processing tool for Excel on the Mac market, the software helps users eliminate repetitive tasks through automation of printing and professional PDF output.

The new version introduces support for the recently released macOS 10.14 Mojave and is offered as a free update to the licensed users. While BatchOutput XLS is fully compatible with the new Dark Mode, the app currently preserves its original appearance. A dark appearance will be introduced in the future.

"I have enjoyed BatchOutput XLS for years now," says Steve Nelson Martin of New Hope Foundation in Beijing, China. "It has really been a huge help for me to process Excel documents into various PDF reports. I estimate that BatchOutput has helped me generate over 200,000 PDFs."

In addition to batch printing, BatchOutput XLS allows to carry out professional PDF production directly from Excel, helping users simplify and streamline the conversion process. BatchOutput XLS is the only app on the market that provides Excel users with advanced PDF creation options:

- * Print and export multiple Excel documents to PDF with just a button click
- * Variable PDF file names based on user name, date, batch number and other values
- * Split Excel workbooks into single PDF worksheets
- * Reduce PDF file size and optimize documents for web, print and mobile devices
- * Encrypt and password-protect PDF from unauthorized copying, printing and viewing
- * Change PDF color tone, brightness and other qualities

BatchOutput XLS is a part of the Zevrix BatchOutput product family which also includes output automation solutions for Microsoft Word, PowerPoint, Adobe InDesign and PDF workflows.

Pricing and Availability:

BatchOutput XLS can be purchased for \$19.95 (USD) from Zevrix website, as well as from authorized resellers and Mac App Store. Trial is also available for download. BatchOutput XLS requires macOS 10.8-11.0 and Microsoft Excel 2008, 2011, 2016 or 2019.
