

Recosoft ships ID2Office 2021 - Export InDesign to Word, PPT & Keynote

Published on 12/10/20

Recosoft Corporation has released ID2Office 2021, the newest version of its InDesign to Word, PowerPoint and Keynote conversion solution for Adobe InDesign 2021. ID2Office 2021 includes support for InDesign 2021 in addition to supporting InDesign CC through 2020 for both macOS and Windows systems. It includes an enhanced graphics processing algorithm improving image and graphics separation in the resulting Office file types. ID2Office 2021 also identifies Arabic and Hebrew languages and more.

Osaka, Japan - Recosoft Corporation, creators of workflow automation software and plug-ins for the Adobe(R) Creative Cloud(R) platform, and developers of PDF conversion tools, has released ID2Office 2021, the newest version of its InDesign to Word, PowerPoint and Keynote conversion solution for Adobe InDesign(R) 2021.

ID2Office 2021 includes support for InDesign 2021 in addition to supporting InDesign CC through 2020 for both macOS and Windows systems. ID2Office 2021 includes an enhanced graphics processing algorithm improving image and graphics separation in the resulting Office file types. Finally, ID2Office 2021 identifies Arabic and Hebrew languages ensuring the precise conversion of text, associated properties and layout elements.

"Over the years our customers have requested improved graphics separation and the capability to process right-to-left languages such as Arabic and Hebrew. With ID2Office 2021, we were finally able to meet these needs"
Paramjit Chadha, MD, Recosoft Corporation

ID2Office converts InDesign files to Microsoft Word, PowerPoint, and Apple Keynote types; converting the text, associated styles, paragraph structure, related property information, tables, graphics and other objects while matching and maintaining the layout fidelity; enhancing data exchange between InDesign and Office platforms. Key new features include:

* Support for InDesign 2021 - ID2Office 2021 now supports and integrates with InDesign 2021. InDesign CC through 2020 are supported as well.

* Arabic and Hebrew language text support - ID2Office adds support for Arabic and Hebrew languages. When exporting InDesign documents with Arabic/Hebrew text, the resulting Word and PowerPoint files include Arabic/Hebrew text. Furthermore, the right-to-left layout properties and style sheet names are propagated as well.

* Separation of images - Images are now separated as much as possible resulting in converted files having images that can be manipulated.

* Conversion of native InDesign vector graphics to Office vector graphics - InDesign vector graphics such as rectangles, lines, ovals, and polygons along with the respective properties are converted to Word, PowerPoint and Keynote vector graphics.

* InDesign form fields to Word form fields - InDesign form field objects are now converted to Word form field objects.

* URL and Link properties - Hyperlinks and local links are now supported and converted to equivalent links in resulting Word/PowerPoint file.

* Extended paragraph properties - Paragraph properties such as borders, shading and rules are now processed, and equivalent properties are made in the converted file.
