Odessa, Ukraine - CS Odessa announces the newest addition to ConceptDraw Solutions. Immunology solution provides ConceptDraw DIAGRAM with new capabilities in the field of immunology, medical virology, and healthcare information documenting. A large number of medical professionals and educators are interested in the tool for explaining complex medical information in a straightforward visual manner. Immunology solution allows one to build professional-looking visualizations: instructional documents, diagrams, infographics, and presentations. ConceptDraw DIAGRAM with its new solution makes quick work of creating infographics and charts on biomedical science and human immune system impacting factors for any audience.

Supported Operating Systems:

* macOS 10.14 and 10.15

* Windows 7, 8.1, and 10 (64-bit certified)

Pricing and Availability:

The Immunology vector libraries and example drawings are available at \$49 (USD) to users of ConceptDraw DIAGRAM v14 and ConceptDraw OFFICE v7. ConceptDraw DIAGRAM is well-known

for its ability to exchange documents with Microsoft Visio - the de facto standard in business graphics documents. It can open and save documents that can be used by Visio (VSD, VDX, and VSDX files) users. It retails for only \$199US per end user license.

ConceptDraw OFFICE v7 is the seventh-generation suite of ConceptDraw products that uses InGyre integration technology to share data between its applications, allowing users to switch gears for different tasks more quickly. It includes DIAGRAM v14, MINDMAP v12, PROJECT v11, and many Solutions to power users through difficult and time-consuming tasks. The ConceptDraw OFFICE suite is designed for knowledge workers, project managers, managers, and academics. It retails now for \$299 (USD) and can be purchased directly from CS Odessa or its resellers.
