

## MacX MediaTrans Gets Big Upgrade on Photo/Video Management

Published on 02/01/21

Digiarty Software MacXDVD today announces MacX MediaTrans v.7.3, an important update to their easy-to-use iPhone/iPad manager for macOS. MacX MediaTrans offers an easy way to transfer photo, video and music between iPhone iPad and macOS. This application also features seamless end-to-end encryption to safeguard media files with the highest level of security. Version 7.3 now supports iPhone 12 Pro/Max RAW album classification, RAW photos export, as well as fixed some minor fixes.

Chengdu, China - Digiarty Software MacXDVD, a leading Mac-based multimedia software developer, is pleased to announce the release of MacX MediaTrans v.7.3, an important update to their easy-to-use iPhone/iPad manager for macOS. MacX MediaTrans offers an easy way to transfer photo, video & music between iPhone iPad and macOS. This application also features seamless end-to-end encryption to safeguard media files with the highest level of security.

Version 7.3 now supports iPhone 12 Pro/Max RAW album classification, RAW photos export, as well as fixed some minor errors, including portrait and edited photo improper export, export original recorded video not after effects video error, and more. The latest version of MacX MediaTrans enables users to do something more for iPhone and iPad photos, music, video files:

- \* Bulk transfer photos, selfies, music, videos, iBooks, voice memos, iTunes purchases, etc. from iPhone iPad to macOS or vice versa
- \* Classify music albums, edit song info, create/delete playlists and make ringtones for iPhone
- \* Auto convert HEIC to JPG, MKV/HEVC to iPhone MP4, MOV during photo & video sync procedure
- \* Encrypt local media file (selfies, pictures, videos...) to safeguard data and personal privacy with password encryption
- \* Mount iPhone iPad as a secret USB drive to store any type of files

Another piece of good news is that any user can seize the chance to bring this iPhone manager home with up to 57% price off.
