Published on 03/29/21

IGG Software, Inc. releases Banktivity 8.2, a new version of their money management app. Banktivity remains the most complete personal finance software available on both macOS & mobile devices. In addition to many bug fixes, this update offers several features unique to each platform. Version 8.2 offers over 25 new features and enhancements including new account types for Canadian & United Kingdom customers. New account types bring even more accurate money management to international customers.

Putney, Vermont - IGG Software, Inc. today announced the release of Banktivity 8.2, a new version of their money management app. The new version includes over 25 new features and enhancements including new account types for Canadian and United Kingdom customers. The new account types bring even more accurate money management to international customers. In addition to many bug fixes Banktivity has added several features unique to each platform.

### macOS:

The macOS version of Banktivity 8.2 brings better drag and drop support, support for a new auto-installer (make updates even easier). Other improvements include a new context menu to duplicate transactions and a new reporting setting to make it easier to find uncategorized transactions.

### iOS:

The iOS version of Banktivity 8.2 brings the transaction downloading and update settings up to par with the macOS version. This will help ensure that sitting at your desk or on-the-go your accounts can stay up to date. The new version also makes it easier to access and edit transactions directly from your budget.

"Almost all of the new features we've added for version 8.2 have been requested by our customers. They have great ideas and everyone wins when we execute on them to make Banktivity even more powerful," said IGG president, Ian Gillespie.

Subscribers can count on immediate access to great connected features like automatic transaction downloading, cloud sync, stock prices and currency exchange rates. Today's release includes a range of bug fixes, customer-requested features and enhancements.

### System Requirements:

Banktivity 8.2 for Mac requires macOS Catalina or higher and the iOS version requires iOS 13.5 or higher.

### Pricing and Availability:

Pricing? An annual Banktivity subscription starts at just \$49.99 (USD) per year. This includes Direct Access (connecting you to over 14,000 banks). A free 30 day trial is available directly from [banktivity.com](http://banktivity.com), and Apple's App Stores. Banktivity is ad-free. There are no third-party services offered to users. Customer data and financial records are never stored, accessed, aggregated or analyzed in any way that benefits IGG or any other marketers. IGG never sells, trades, rents or shares customer information.
