

## The iBarcoder mac barcode software v 3.12.9 released - Big Sur supported

Published on 05/18/21

Cristallight software announces iBarcoder 3.12.9, a popular mac barcode software title. The product supports about 50 barcode types, QR Code, Datamatrix, GS1-Datamatrix, Aztec, UPC, ISBN, EAN, GS1-128, SSCC-18, GTIN-14, PDF417 codes among them. With iBarcoder you can create individual and bulk barcodes, or barcoded labels. Print, export barcode images, or barcode image sequences with information from various data sources. Add label designs with text, images, and graphics objects.

Palatine, Illinois - Cristallight Software recently released iBarcoder 3.12.9, a new version of the leading mac barcode generator and label maker software for macOS. Cristallight Software made barcode functionality improvements, user interface and dark mode changes, as well as ensured Apple Silicon compatibility. The product now supports about 50 barcode types, an easy-to-use interface, and intuitive functionality. Create single or bulk barcodes of high quality, add label designs using built-in and custom label formats. Print, export barcodes, or label designs with the help of:

- \* Advanced editing - Add bar code objects, text, image boxes, and graphics objects. Add simple text (.txt), or Excel Workbook (.xlsx) data sources for barcodes and text objects, or use automatic data incrementing in the Counter mode,
- \* Barcode export - Create image files not only as a raster images, but also as vector images in PDF and EPS formats,
- \* Choose RGB or CMYK color mode, to avoid color conversion problems when using exported barcode images with graphic software (Illustrator, CoreDraw),
- \* Advanced printing - Print ranges management, and excluding certain labels from printing with just a mouse click on the label format preview,
- \* Contacts integration, for encoding personal data into QR Code, and DataMatrix 2D barcodes, either as plain text, or vCard, meCard, xCard templates,
- \* And more.

The iBarcoder is a simple, intuitive, affordable, and innovative mac barcode generator. It makes the process of creation, exporting, and printing barcodes easy and quick. No special knowledge, or skills are necessary, anyone can start using it practically in no time. LIFETIME license with FREE updates, and free tech support means no costly software or equipment upgrades.

Cristallight Software regularly updates the iBarcoder to keep it in up to date. The iBarcoder 3.12.9 requires Mac OS X 10.10 or later, and costs \$49.95 (USD).
