

## **DeepFish 1.5 - Multi-folder Deep Email Search for iPhone w/Flags**

Published on 11/12/09

WebIS is very happy to announce the release of DeepFish 1.5, a unique email search application for the iPhone. DeepFish has one simple purpose; search your IMAP-based email accounts easily and quickly. DeepFish is fast, memory efficient, and is designed to behave properly in high latency EDGE and 3G networks. DeepFish provides a very simple interface, yet offers options that let you customize its behavior to your needs. Reply, Forward, Flag emails. See all your flagged emails in one search.

Cedar Park, Texas - WebIS is very happy to announce the release of DeepFish 1.5, a unique email search application for the iPhone. DeepFish has one simple purpose; search your IMAP-based email accounts easily and quickly. DeepFish is fast, memory efficient, and is designed to behave properly in high latency EDGE and 3G networks. DeepFish provides a very simple interface, yet offers options that let you customize its behavior to your needs. Reply, Forward, Flag emails. See all your flagged emails in one search.

Using DeepFish an IMAP user can search the contents of their email across folders using a simple iPhone search interface. Setup multiple IMAP accounts and search for email individually, across folders, or through sub-folders. Search for flagged emails with its unique Flagged Search Interface. Forward, Reply, Delete found emails.

Leveraging the deep and wide iPhone OS with a Cocoa Touch interface on top of our time-tested and robust email engine designed for use on mobile devices, DeepFish is fast, memory efficient, and is designed to behave properly in high latency EDGE and 3G networks. Now using iPhone OS 3.0 CoreData technology DeepFish is far more reliable and faster than ever before.

Features of DeepFish include:

- \* Automatically supports GMail and MobileMe accounts
- \* Search Flagged Messages
- \* Search From, To, Subject, and entire message contents
- \* Search in sub-folders or a single folder
- \* Search in Deleted Folders as an option
- \* Search in Sent Folders as an option
- \* Configure the number of lines to preview
- \* Configure Sort By and Direction
- \* View Attachments
- \* Reply, Forward, Delete Emails

DeepFish joins our other iPhone productivity applications on the iPhone such as the award winning Note2Self and multi-platform power packed Personal Information Manager - Pocket Informant which was on Apple's "Hot List" and has been in the top 20 selling paid productivity applications for the last few months.

System Requirements:

- \* iPhone or iPod Touch
- \* iPhone OS 3.1 or higher

Pricing and Availability:

DeepFish 1.5 for iPhone is only \$1.99 (USD) and available exclusively through the App Store in the Productivity category.
