

Mac Games and More Releases United State of Pool - New Billiards Game

Published on 11/13/09

Mac Games and More has announced the release of a new Mac game called United States of Pool, which includes various 9-Ball pool games. Play the arcade mode for a light-hearted game with or without an opponent that is filled with bonuses, or play a straight up game of 9-Ball with another player.

Atlanta, GA, USA - Mac Games and More today announced the release of a new Mac game called United States of Pool, which is a set of billiards game that allows you to travel across American stopping off in various cities to play a match of 9-Ball pool and more. In order to advance to the next city, players are required to earn a minimum number of points and win the game against their opponent.

United States of Pool features two kinds of game play. An arcade mode for one or two players, where the rules of 9-Ball are only loosely enforced and includes fun bonuses that add speed and different movement to balls as well as opportunities to earn points and more shots. The other game play involves two players playing a straight game of 9-Ball, where the actual rules of 9-Ball are strictly enforced.

United States of Pool incorporates very realistic physics and sound effects and therefore comes very close to feeling like a real game of pool, as close as one could get inside a Mac computer game. Players choose their avatars from a choice of 15 characters, and are able to customize them by adding their own names if desired. They can also choose the color of the table top from five different colors.

Pricing and Availability:

United States of Pool features hours of entertaining game play. A free trial version is available to download at Mac Games and More. United States of Pool costs \$9.95 (USD).
