

## Mathemagics for iPhone is an AppStore Essential for Boys

Published on 11/17/09

Blue Lightning Labs today announced that their popular iPhone application Mathemagics has been picked as an Apps for Boys AppStore Essential. Mathemagics, an application for learning to mentally calculate math problems at phenomenal speeds, has garnered outstanding reviews and continues to amaze users. Aspiring Mathemagicians learn and then practice any of the 20 math tricks while progressively moving to higher levels of proficiency.

Austin, Texas - Blue Lightning Labs today announced that their popular iPhone application Mathemagics has been picked as an Apps for Boys AppStore Essential. Mathemagics, an application for learning to mentally calculate math problems at phenomenal speeds, has garnered outstanding reviews and continues to amaze users. Aspiring Mathemagicians learn and then practice any of the 20 math tricks while progressively moving to higher levels of proficiency.

"Apple has chosen Mathemagics to be a part of its Apps for Boys AppStore Essentials," said Shane Crawford of Blue Lightning Labs. "This is a great idea. Many of our users have reported that the mental math tricks have helped improve math abilities for themselves as well as those in school."

Mathemagics is perfect for students, teachers, or anyone else looking to kick their brain function into high gear. The applications hand-drawn look engages the user and is well-suited for quick practice sessions. Users are challenged to achieve new levels of competence, from apprentice to mathemagician, for each trick.

Mathemagics 1.1 challenges users to master 20 math tricks:

- \* Multiply as high as  $20 \times 20$
