Bronx, New York - daisyamerica LLC and Adelante Consulting Inc. announce today the release of the ebook application for iPhone and iPod touch: "The Third Advent" by Gregoire de Kalbermatten. The Third Advent takes the reader on a journey through 6000 years of politics, economics, philosophy and religion, to bring forth a message of hope for the future that is as practical as it is profound.

Our current world turmoil is undoubtedly a reflection of the complex imbalances that afflict every level of our global society, and many fear that mankind is doomed to failure. Yet the author contends that we are on the threshold of a complete transformation: that individually, we can change the core of our being and thence the world itself. With remarkable candor, Gregoire de Kalbermatten takes us along his own event-filled path to enlightenment, a path which ended at the feet of one many know as the greatest spiritual Master of our time.

Shri Mataji Nirmala Devi has introduced to the world an astonishingly simple method of inner transformation through Sahaja Yoga: a method with far-reaching and profound implications for our ability to rise, phoenix-like, from the ashes of our past foibles. Her teachings are presented here against the background of an astute, scholarly and entertaining probe into the history, ancient and modern, of man's search for his true Self.

The author also discusses how the principles of Sahaja Yoga can be integrated into business practices at the corporate level, resulting in greater prosperity for all. The Third Advent is a work of great originality. It proposes and describes a new category of perception, which balances, heals and connects us to the primordial power of life itself. The iPhone application tries to replicate the usual book reading experience adding new features: keeping track of the last page read, customizable font family and size, etc.
