

Black Friday Deals @ DEVONtechnologies

Published on 11/25/09

DEVONtechnologies, LLC has announced their Black Friday deals - offers 25% percent discount on all new purchases of its software products on Black Friday, November 27, 2009. Exclusively, traditionally, and only on Black Friday, DEVONtechnologies is proud to offer a 25 percent rebate on their software products from DEVONnote to DEVONagent and DEVONthink. Users can put any product they want to purchase into their shopping cart with the 25 percent Black Friday discount.

Coeur d'Alene, Idaho, USA - DEVONtechnologies, LLC has announced their Black Friday deals - offers 25 percent discount on all new purchases of its software products on Black Friday, November 27, 2009.

Eric Bohnisch-Volkman, President of DEVONtechnologies: "Black Friday is the one-day shopping event for the Mac community. And so, following an old tradition in the USA, we're offering our well-known applications DEVONthink, DEVONagent, DEVONnote, and the Infoworker's bundles (consisting of DEVONthink Pro or Pro Office and DEVONagent) with 25 percent discount on this year's Black Friday. If you're thinking about going paperless, Friday is the day!"

Exclusively, traditionally, and only on Black Friday, November 27, 2009, DEVONtechnologies is proud to offer a 25 percent rebate on their software products from DEVONnote to DEVONagent and DEVONthink. More information about the deal can be found on the DEVONtechnologies website (links will become active on Friday).

Users can put any discounted product they want to purchase into their shopping cart with the 25 percent Black Friday discount. The shop page's 'Continue Shopping' link will lead them back to the promotion page, so that they can easily add another product to their shopping cart in case that they want to purchase more than one application with the discount.

DEVONtechnologies LLC, founded in 2002, incorporated in 2004 and headquartered in Coeur d'Alene, Idaho, USA, researches in the field of semantic and associative data analysis and synthesis, and develops key applications based on the DEVONtechnology. Named after the Devonian Period, the DEVONtechnology marks the departure into a new age of data processing. The main focus of all activities is clearly on using the robust, flexible and versatile architecture intelligently to create rock-solid applications for a variety of purposes, including but not limited to databases, intelligent agents, data-mining, information retrieval and human-computer-interfaces.
