

New generation of duplicate tool

Published on 02/12/07

Hyperbolic Software releases a new version of Tidy Up!, our next generation of duplicate finder and disk tidiness utility.

Hyperbolic Software releases a new version of Tidy Up!, our next generation of duplicate finder and disk tidiness utility.

With Tidy Up! you can search for duplicate files and packages; by the owner application, content, type, creator, extension, time modified, time created, name, label, visibility and delays. You can also search by the tag, duration and bit installments of MP3 and AAC sound files, search the contents of the iPhoto, iTunes, iPod databases and Mail mailboxes, and synchronize deletions with iPhoto, Mail and iTunes.

Tidy Up! allows you to search for duplicate folders; by name, date modified, date created, label visibility, empty folders, their contents and more.

Tidy Up! is fast, from 20% to 50% faster than the already fast Doublet Scan. With its multitasking capability, you can do more searches at a time and take advantage of the latest Macintosh computers and operating systems.

Tidy Up! has a security system that assures you will keep at least one file of the duplicate group on your disk, the ability to undo copied and moved items and the ability to restore trashed items as long as the trash is not emptied, even after a restart of the computer.

Tidy Up! comes with a list of tasks with which you can do some common searches and for a customized strategy, it offer Strategy Wizard. Based on your choices it creates the appropriate criteria with which to search for duplicates and a new "Smart Basket" that will contain the items to be removed.

Tidy Up! offers a full-size preview of the most commonly used files such as: audio, media, text, pdf, graphics, fonts and more...

One of the most interesting features of Tidy Up! is the capability to separate, for quick and easy organization, found items using custom criteria via "Smart Baskets".

Of course Tidy Up! allows you to trash, move, burn and export into html files all found items.

Tidy Up! is fully customizable and allows you to create your preferred workspace.
