

Oniric Games releases Silent Swords 1.2 for iPhone and iPod touch

Published on 11/28/09

Oniric Games has announced Silent Swords 1.2 an update to their stealth action game for iPhone/iPod touch. Designed exclusively for the iPhone and iPod touch, Silent Swords is inspired by the genre's classics and takes full advantage of the iPhone's unique features. Your mission is to help the Little Black Ninja break out of the top secret military base that holds him prisoner. Version 1.2 includes a new unlockable Christmas level and more control options.

Junin, Buenos Aires, Argentina - Oniric Games has announced the second update to Silent Swords, the first stealth action game designed exclusively for the iPhone and iPod touch. Update 1.2 is currently available on the App Store and includes a new unlockable Christmas level and more control options.

Silent Swords Update 1.2 includes the following new features:

- * New control options. Now players can choose among 5 different control settings, including a new thumbstick-style control. There's a control option to suit every player.
- * New unlockable level. To celebrate the Holiday season, we've included a new Christmas-themed level. This brings the total number of unlockable levels to 6, that become available once the player beats the game.

It also includes all features that made the original version unique:

- * True stealth action at your fingertips!
- * Avoid the lights and become invisible in the shadows
- * Dispatch nearby enemies using gesture-driven sword attacks
- * Swipe your finger to throw shurikens and knock down enemies before they notice you
- * Use your environment for camouflage

System Requirements:

- * iPhone or iPod Touch 2.2.1 or later

Pricing and Availability:

Silent Swords 1.2 is only \$2.99 (USD) and available worldwide exclusively through the App Store.
