

The Infinite Kind announces Moneydance 2010

Published on 12/07/09

The Infinite Kind is proud to announce Moneydance 2010, an update to their full-featured personal financial management application. With a familiar checkbook-register interface, Moneydance includes features such as online banking, online bill payment, investment management, budget tracking, scheduled transactions, check printing, detailed graphs, reports, and much more. Moneydance 2010 includes a simplified yet more powerful interface and streamlined online functions.

Charlottesville, Virginia - The Infinite Kind, LLC is proud to announce the release of Moneydance 2010, a major update to their full-featured personal financial management application for Mac OS X, Windows and Linux. With its familiar checkbook-register interface, Moneydance includes such features as online banking, online bill payment, investment management, budget tracking, scheduled transactions, check printing, detailed graphs, reports, and much more.

With Moneydance' intuitive reporting and graphing tools, users can analyze and explore their financial status at any time. It's easy to set and track budgets, as well as setting reminders for upcoming bills. Moneydance offers extensive multi-currency support, and can also track and calculate VAT and GST for easy tax reporting. Users may automatically download up-to-date exchange rates and choose a different base currency for each account.

Users may track their portfolio and investments, and save time and money with online banking and bill payment. Moneydance can download transactions and send online payments directly through hundreds of financial institutions, offering encryption and password-protection to ensure privacy, while keeping finances organized, safe and up-to-date.

Moneydance 2010 includes a large number of new features:

- * Sidebar for always-visible account status and navigation between accounts, budgets, reports and graphs
- * Downloads transactions from all online connected accounts in the background
- * Downloaded transactions are automatically merged, no manual confirmation required
- * Improved automatic cleanup and categorization of downloaded transactions
- * More reports and graphs including capital gains reporting
- * More options for filtering reports and graphs by tags
- * Account register filtering by date or cleared status
- * Quick-search to find transactions right from the home page
- * Budget bars on home page show budget status details at a glance
- * Create, edit and record scheduled reminders and transactions right from the home page calendar

Supported Languages:

- * US English, UK English, German, French, Spanish and Norwegian

System Requirements:

- * 4.8 MB Hard Drive space
- * 256 MB RAM or higher
- * Moneydance 2010 supports Mac, Windows, Linux, Solaris, OS/2, and Unix
- * Moneydance data is completely portable between platforms, allowing maximum flexibility

Moneydance uses industry standard technologies such as OFX, QIF, SSL/TLS, Java, and XML to ensure compatibility with other software and services. In addition, Infinite Kind's open API and Extension Developer Kit allow advanced users to extend the software.
