The app provides all the chills and thrills of those memorable ghostly tales heard around childhood campfires, on a daily basis. Classic favorites, newer stories and true accounts of ghost sightings are delivered directly to users' iPhone. This app has been developed for those that still hunger for a delightfully bloodcurdling tale.

Waretown, NJ - Announcing that Deep Powder Software, developers of Ghost Stories! for iPhone and iPod Touch users, has released an app that provides all the chills and thrills of those memorable ghostly tales heard around childhood campfires. Hearing someone tell a good story in the dark may scare the daylights out of people when they're children but for some reason or other, many never outgrow the love of a good, thrilling horror theme. This app has been developed for those that still hunger for a delightfully bloodcurdling tale.

Ghost Stories! is a calendar based application that delivers spooky stories to users on a daily basis. Some are classic tales of horror guaranteed to bring back memories, while others are newer or true accounts of ghostly sightings. Users have access to so many, that there is no concern about running out or getting bored.

There is a keyword search function available within the Ghost Stories! app that helps users find some great new reading or locate a favorite frightening fable to relive the time spent spellbound, listening to a spooky story around the campfire. For the ghost tale enthusiast, Ghost Stories! satisfies that lust for an endless supply of chills, thrills and childhood memories.
