

## 50% Off MileBug for iPhone Holiday Sale

Published on 12/16/09

Izatt today announced it is offering the full version of MileBug for 50% off as a Holiday Sale. To get ready for a new year of tracking miles and expenses, Izatt is offering MileBug at a substantial discount through December 31st. Version 1.5 is coming with great new features such as Frequent Trips and Expense Tracking. MileBug helps those driving their own vehicles for business, charity, medical, or other reasons receive their reimbursement and/or tax deduction.

American Fork, Utah - The popular iPhone mileage log application, MileBug, is now available for half off the regular price. Only \$1.99 through December 31st as a special Holiday Sale to get ready for a new year of tracking miles and expenses.

A new update, version 1.5, is also on its way with great new features such as:

- 1) Frequent Trips
- 2) Expense Tracking - create your own categories
- 3) Options for default trip origin
- 4) Swipe to delete single trip
- 5) In-app report emails
- 6) In-app settings

From small to big business, from realtors to direct sales consultants, MileBug continues to serve those needing a mileage tax break.

"As a realtor, I am always going somewhere. This program makes it extremely easy to track my miles for tax purposes." - customer review

"I am an independent Mary Kay Consultant and just got done with my taxes for 2008...2009 taxes should be a lot easier! Thank You!" - customer review

"The trip log that I liked best is MileBug from Izatt International." - The Apple Blog

"Milebug saves you time and money; and is a MUST have for any business owner." - iReviewiPhoneApps

MileBug helps those driving their own vehicles for business, charity, medical, or other reasons receive their reimbursement and/or tax deduction. In the U.S., the IRS business rate for 2010 is 50 cents/mile. MileBug for the iPhone/iPod Touch helps people track their miles and provides emailed reports for easy submission to employers, accountants, and the IRS.

"MileBug is a mileage tracker for your iPhone or iPod Touch that makes it super easy to ... track your mileage. This is great if you need to report your mileage to your boss ... the [IRS] ... or for any personal reasons." - AppStoreApps

"In my job, I need a way to track mileage for work trips around town. MileBug does a great job of providing a really simple (and IRS friendly) method of tracking my trip logs. I really like how I can export the reports to email for reimbursement and reporting." - The Apple Blog

Now inside the MileBug app is an option to select kilometers instead of miles. From within the Presets, users can define custom rates for business, charity, medical, and other categories. If you get one rate from your employer for reimbursement, and another rate from the IRS for your side business, you simply create two different business rates.
