

Dot Com Infoway releases PatternBlox 1.0 for iPhone and iPod touch

Published on 12/26/09

Dot Com Infoway has announced PatternBlox 1.0, its match puzzle game for the iPhone and iPod touch devices. PatternBlox is a mind-bending iPhone match puzzle game, wherein a gamer can match colors with objects with an unlimited and rapid game play to tease their brain. The objective of the game is to match the correct colored amoeba with the matching colored block. The amoebas will be in different colors and as set of blocks.

Chennai, India - Dot Com Infoway, the leading developer and publisher of broadly appealing iPhone apps and games, today announced the launch of its Match puzzle game hit PatternBlox, for the iPhone and iPod touch devices. The credit of DCI's iPhone game development services goes to the momentum, that was stimulated by the massive success of its FruitBlox 1.1, which is a mind-boggling iPhone squaring puzzle game.

Like FruitBlox, PatternBlox is a mind-bending iPhone match puzzle game, wherein a gamer can match colors with objects with an unlimited and rapid game play to tease their brain. PatternBlox is available immediately for \$0.99 from Apple's App Store on iPhone and iPod touch.

"Definitely, PatternBlox is another exquisite addition to DCI's growing library of games and apps for the iPhone and iPod touch. Just within few hours of release, the figures in the store download counter were terrific" said Mr. CR Venkatesh, CEO of DCI. "We feel that the uncluttered touch screen and the multi-touch attribute of the iPhone and iPod devices are the ideal interface for Touch-play mechanism which is the staple of our games. This is a brilliant moment that currently we have good track record in the App store and we are the proud creators of some of the well-acclaimed iPhone games available in the Apple's App Store. Both Young and old, Guys or Girls, every iPhone user enjoys playing our games." said Mr. Vijayakumar Radhakrishnan, Chief Technology Officer of DCI.

In PatternBlox, players match number of different colored amoebic objects, scattered all over the screen. The amoebas will be in different colors and as set of blocks. The objective of the game is to match the correct colored amoeba with the matching colored block. Players can swap places of two amoebas at a time by selecting them. It is not really necessary that the amoebas should be next to each other. So the game goes on with unlimited clicking, swapping and matching.

Three different modes providing virtually unlimited game play at infinite configurations:

Survival Mode:

This is a glorious original puzzle level where players matches the amoebas to closing a level in a preset time and get on to the next levels. Time Panic Mode: This thriller mode makes the players to complete multiple levels in a stipulated time.

Endless Mode:

This is for rock-solid iPhone gamers who can play infinitely or until their iPhone breaks into two.

Dynamic Level Generation:

Ensures different game plays in every level, no matter how many times you play it, again and again. Online scores of the game are maintained so that you can see how far away you are from the rest of the world toppers.

Device Requirements:

* iPhone or 2nd Generation iPod Touch 2.2.1 or later
