AppVault contains an iTunes Alarm Clock, Battery Monitor, Flashlight, Translator, Unit Converter, Bible, Tip Calculator, Level, Currency Converter, Guitar Toolkit, and 15 other popular utility apps in a single package. AppVault is customizable so you can work with it the way you want. Arrange the apps in any order you'd like, change the background, or set the number of icons that show up per row.

Huntingtown, Maryland - Ray Wenderlich has released AppVault 1.1 for iPhone and iPod touch. AppVault contains an iTunes Alarm Clock, Battery Monitor, Flashlight, Translator, Unit Converter, Bible, Tip Calculator, Level, Currency Converter, Guitar Toolkit, and 15 other popular utility apps in a single package. Competing with other app collections, AppVault distinguishes itself by providing a high level of quality in each app.

"We spent over a third of our project adding polish", said Ray Wenderlich, one of the three programmers on the AppVault development team. "We wanted to make sure each app was as quick and easy and delightful to use as possible - and looked great too."

Complete list of apps available in AppVault:

- 1) iTunes Alarm Clock - Wake up to any song on your playlist
- 2) Battery - Shows you how long you'll have to wait for a full charge
