

## **428,917 people downloaded FlipSide5's Touch Hockey on December 25th**

Published on 01/05/10

FlipSide5 today announces that 428,917 people downloaded Touch Hockey on December 25th. Overall FlipSide added 4.3 million new customers this past holiday season. Instant Replay, Multi-Player Network play, realistic air hockey topping game play and real-time 3D rendering highlight it's break-through features. Touch Hockey runs at 60 frames per second when playing in one player mode, two player mode as well as when playing over your WiFi network.

Reston, VA - FlipSide5's Touch Hockey, the best selling iPhone air hockey game of all time, had its best single day ever with 428,917 people downloading the game from Apple's iTunes App Store on December 25th. During this past holiday week Touch Hockey had over 1.3 million new downloads. FlipSide5's other titles had also had a great holiday season and overall FlipSide5 added over 4.3 million new customers.

Michael Sanford, FlipSide5's President, said: "It was a very good way to finish up the year. The multi-player features of Touch Hockey are what separate it from other iPhone games and it has maintained a strong following for over a year. Not only did Touch Hockey do well but all of our titles had a strong finish. We are anticipating a great start to the new year with our highly anticipated Plus enabled Touch Tanks launching very soon. I think the huge spike we saw this past holiday shows the continued strength of the iPhone platform, particularly the continued growth of the iPod touch as a game platform."
