

Postino 1.6.4 brings Leopard support

Published on 10/29/07

Today, Coladia releases Postino 1.6.4, an upgrade of its RSS reader and podcast player. This version brings support for MacOS X 10.5 "Leopard" and minor enhancements in the user interface. Postino is an RSS newsreader sporting an intuitive and elegant interface. It also contains advanced features such as audio and video podcast management, RSS feed auto-discovery, search subscription, multi-tabbed web browsing and PostinoLive, a guide referencing the most popular audio and video podcasts.

Paris, France - October 29, 2007 - Coladia releases Postino 1.6.4, an upgrade of its RSS reader and podcast player. This version brings support for MacOS X 10.5 "Leopard" and minor enhancements in the user interface.

Postino is an RSS newsreader sporting an intuitive and elegant interface. It also contains advanced features such as audio and video podcast management, RSS feed auto-discovery, search subscription, multi-tabbed web browsing and PostinoLive, a guide referencing the most popular audio and video podcasts.

Postino is designed to run on any computer running Mac OS X 10.4 "Tiger" or MacOS X 10.5 "Leopard". Postino is shipped as a Universal Binary application and is optimized for both PowerPC and Intel processors.

Postino is now available for download and is offered at a price of US \$18. Postino can be used for free during a period of 30 days.
